

Appendix 2

of General Terms and Conditions of RE'LEM Nonprofit Co. Ltd.

Calculating Waste management fee and the Registration fee

Waste management fee

Calculation of waste management fee is based on data provided in Annual Report using the equation below:

$$\text{Waste management fee to pay} = \text{primary and secondary batteries sold by producer in the time period of report} \times \text{waste management fee / Kg} + \text{VAT}$$

Registration fee

Those partners of Compliance Organization that are provided with the services of the Organization based on the Agreement on Transfer of Responsibility, and were not among the members of Portable Battery Association on 18th March 2005, are required to prove to Compliance Organization that in the year prior to signing the Agreement they fulfilled their obligations in taking back and collection in accordance with the law, otherwise they need to pay registration fee determined and made public by Compliance Organization when signing the Agreement.

Calculation of registration fee is based on data provided in Annual / Preliminary report using the equation below:

$$\text{Registration fee to pay} = \text{primary and secondary batteries distributed by producer in the previous year} \times \text{registration fee / Kg} + \text{VAT}$$
